

Character Education

At Lake George Elementary School, we follow the "Golden" Rule and we're a Leader in Me Lighthouse school. All students and staff believe that treating others the way that we want to be treated leads to a respectful learning environment and a positive school climate. At the start of every school year assemblies are held for each level to review this belief and expectation for our school. Monthly assemblies during the school year are held at each level and students are recognized for their positive character in front of their peers at these assemblies. Every day, our teachers involve students in leadership experiences that help to foster positive character.

In the 2018-2019 school year Lake George Elementary School celebrated 50 years at our current location. LGES is a unique one-story building designed with large open spaces or "clusters." In addition to outstanding special area spaces including our library, gymnasium, "Little Theater," music, & art rooms, we have four large clusters that are divided into classrooms by moveable partitions. The "open" classrooms allow us to provide creative learning opportunities for our students.

Highlights

- LGES is consistently ranked among the top schools in the Capital District.
- Named a 2023 US News and World "Best" School
- LGES is a 2019-2020 NYS "RECOGNITION" school for our strong academic program that puts us among the top schools in NYS
- LGES was recognized by FranklinCovey Education In in 2019 as a Leader in Me Lighthouse School for our strong leadership program. We have just completed our 5th year of this recognition.
- LGES has also been recognized by Franklin Covey for our strong academic program.

Who We Are

- Teaching teams develop a sense of community not only within their classrooms but within the grade level teaching team and entire level. Students at a grade level get to know all of the other teachers and students.
- Teaching teams collaborate, discuss curriculum, & work together to meet students needs. Teachers provide daily intervention and/or enrichment to all students - WIN time!
- We are proud of our special education program in which we provide a range of services including a highly successful integrated co-teaching model. This is where a regular and special education teacher work together throughout the day meeting the needs of all students in their classroom.
- We have a 1:1 computing environment with iPads at grades K-4 and laptops at grades 5 & 6.
- All students in grades K-6 have STEM experiences throughout the school year, including robotics, engineering, and coding. Many co-curricular STEM opportunities are provided.
- Students learn leadership principles and are provided leadership opportunities and voice in their school.
- Our library media center is second to none!
- K- 6 monthly celebrations focus on our character education program and leadership.
- LGES has an outstanding program in the "specials. Theses are Art, Music (instrumental/vocal), High Potential, (enrichment), Physical Education, World Language (grades 3-6).
- Students love the fact that the building is carpeted and air conditioned.
